

Regulator de temperatura - 10 zone

Tip/Type RTD10

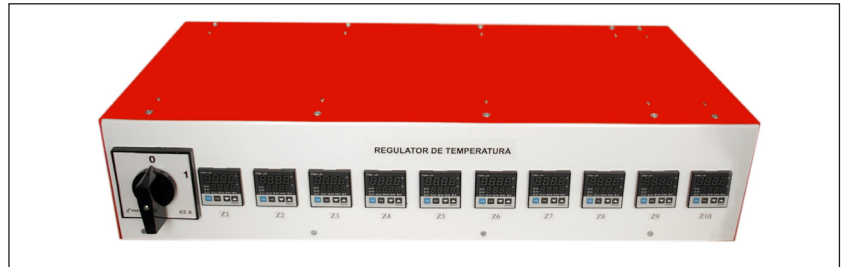

Caracteristici:

- circuite de control: 10 zone
- tensiunea de alimentare: 380 V
- puterea maxima: 3500 W / zona
(la cerere disponibile si alte puteri)
- carcasa metalica
- lungimea cablului de alimentare: 2,5 m

Temperature Control Unit - 10 zone

Standard features:

- number of control circuit: 10 zone
- voltage: 380 V
- max. power: 3500 W / zone
(other powers available on request)
- metallic case
- cable length: 2,5 m

Nr. / No.
RTD10

Regulator de temperatura - 12 zone

Tip/Type RTD12

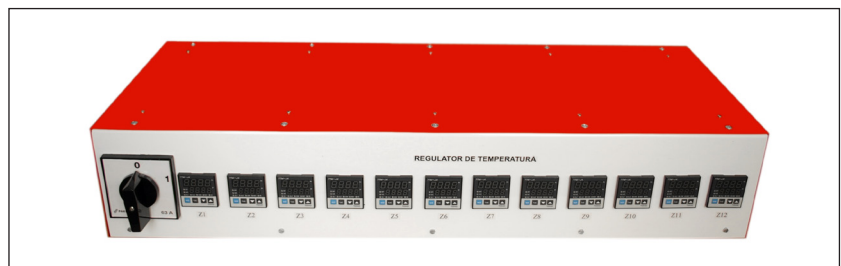

Caracteristici:

- circuite de control: 12 zone
- tensiunea de alimentare: 380 V
- puterea maxima: 3500 W / zona
(la cerere disponibile si alte puteri)
- carcasa metalica
- lungimea cablului de alimentare: 2,5 m

Temperature Control Unit - 12 zone

Standard features:

- number of control circuit: 12 zone
- voltage: 380 V
- max. power: 3500 W / zone
(other powers available on request)
- metallic case
- cable length: 2,5 m

Nr. / No.
RTD12
