RAS

Tipuri Types		RAS1	RAS2	RAS3	RAS4	RAS5
Puterea max.: Max. wattage:	W	1000	2000	3000	4000	5000
Dimensiuni: Dimensions:	mm	100x60x254	100x60x504	100x60x754	100x60x1004	100x60x1254

Tip/Type PAS

Caracteristici standard:

- Pot fi fixate direct pe pereti si pozitionate in unghi pentru a oferi o acoperire mai eficienta a zonei care urmeaza sa fie incalzita.
- Ele sunt foarte eficiente in domeniile in care usile sunt mereu deschise sau izolarea este slaba.

Standard features:

- The P.A.S. can be fixed directly to walls and angled to give the most effective coverage of the area to be heated.
- They are very effective in areas where doors are continuously being opened or insulation is poor.
